I will share the draft once Gary and I have pulled it together. He worked this with Gunter so we wouldn't expect a problem. **b(5)**

Thanks,  
Maxcine

Maxcine,

Assuming that the email to the Germans and to SRNS is along the lines of my draft letter and you can get it to us before 10/31, then I'm probably OK with not sending my letter (would need agreement from Sprague and Temple).

Also, I would like to preview the draft email you are planning to send to the Germans as well as the draft letter you would send to us.

Thanks,

Gary talked with Gunter Damm and he wants an email that Gary and I will draft that he will concur on via email. I will then take that email and use it in a letter to SRNS on continuing through Nov on the step 1 activities. This should be acceptable because the WFO has wording that allows DOE to perform oversight for Juelich of this work. **b(5)**

Thanks,  
Maxcine

Please do not issue this letter until after the meeting today at 4 pm and Gary DeLeon's discussion with Gunter Damm of Juelich on

Wed/Thursday.

Thanks,  
Maxcine

Official Use Only - Pre-decisional Draft

Attached is a DRAFT letter outlining SRNS plans for continuing WFO Step 1 activities beyond 10/31/14 and for curtailing pad construction and operational readiness activities associated with the HTGR fuel as verbally directed by Maxcine on 10/22. Please review this letter and provide comments by COB on Wednesday, 10/29.

Bill Swift - as discussed, please provide the missing budget info in item #1.
