Mr. Pierre Saverot, Project Manager  
Licensing Branch  
Division of Spent Fuel Storage and Transportation  
Office of Nuclear Material Safety and Safeguards  
United States Nuclear Regulatory Commission  
ATTN: Document Control Desk  
Washington, D.C. 20555-0001

Dear Mr. Saverot:

SUBJECT: Request for Additional Information for the Review of the Model No. 9975  
Package. (Your letter. 02/05/14)

On February 5, 2014, the Savannah River Operations Office (SR) received the Nuclear  
Regulatory Commission's (NRC) Request for Additional Information on the Safety Analysis  
Report (SAR) for the Model No. 9975 shipping package submitted on September 30, 2013.  
SR has incorporated the responses to the NRC's Request for Additional Information in a  
revised SAR for the Model No. 9975 shipping package and is submitting six copies of the  
revised SAR in reference to Docket No. 71-9975 and TAC No. L24798.

+ 1 Paper Copy

If you have any questions please contact me, or have your office contact Allen Gunter at  
(803) 208-3975, or [h.gunter@srs.gov](mailto:h.gunter@srs.gov).

Sincerely,

Patrick W. McGuire  
Assistant Manager for Nuclear Material  
Stabilization Project

AMNMSP-14-0017

Enclosure:  
9975 SAR, S-SAR-G-0001.  
Revision 1, April 2014 (six CDs)
