1 I, Bruce M. Diamond, declare as follows:  
2

3 1. I am the General Counsel for the National Nuclear Security Administration (“NNSA”).  
4

5 2. After further review of the unusual circumstances surrounding the shipment of plutonium to  
6 Nevada in compliance with the injunction issued by the U.S. District Court in South Carolina  
7 and the need to protect national security while providing as much transparency as feasible, the  
8 Department of Energy (“DOE”) has determined that certain information relevant to the Nevada  
9 litigation is now declassified and it may now provide additional information to the Court and the  
10 parties.  
11

12 3. In order to provide security for its shipments of these kinds of materials DOE normally will  
13 not release information about the status of the shipment(s) until sometime after the shipping  
14 “campaign” is concluded. The agency originally determined that all shipments related to  
15 compliance with the order of the U.S. District Court in South Carolina constituted one campaign.  
16 After due consideration, and in light of the factors set out above, DOE has now decided that it  
17 may consider the shipment of plutonium to Nevada under the court order as a separate campaign.  
18

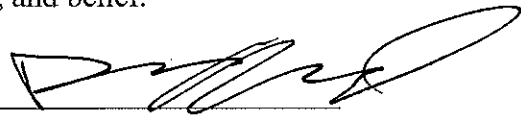

19 4. Because sufficient time has now elapsed after conclusion of this campaign, DOE may now  
20 publicly state that it has completed all shipment of plutonium (approximately ½ metric ton) to  
21 Nevada pursuant to its efforts to comply with the South Carolina U.S. District Court order.  
22 Although the precise date that this occurred cannot be revealed for reasons of operational  
23 security, it can be stated that this was done before November 2018, prior to the initiation of the  
24 litigation.
